

Impact Statements 2020

Animals

Animal Adoption Center Inc.

With the help of Old Bill's Fun Run and our incredible community of animal lovers, the Animal Adoption Center was able to save a record of 472 dogs, cats, puppies, and kittens in 2020. This is double our historic adoption rate. Old Bill's gifts and the match made life-saving surgeries and bright futures possible for homeless pets. Grant funds also paid for basic medical care, training, outreach, salaries, pet supplies and operating expenses. It is a gift beyond compare to be able to say "yes" to animals in need and to help families connect with their new furry family member. Thank you for fueling our mission!

Animal Shelter – Jackson/TC

As a direct result of Old Bill's support, the Animal Shelter was able to perform diagnostic testing, provide necessary surgeries and microchipping, and offer individualized care, food, and treatment prior to adoption. We were also able to drastically reduce unwanted and accidental litters by spaying and neutering all the homeless animals that come through the shelter. The funds also helped in keeping the local feline population healthy by performing feline leukemia/FIV tests on every one of our cats. In addition, Old Bill's funds funded the shelter part-time kennel technicians that help provide dedicated and experienced care to all in-house animals 7 days a week.

Dog is My CoPilot, Inc.

Animal transport programs are key to the ending the euthanasia of animals because of shelter overcrowding. Thousands of dogs and cats have been saved by flying them from areas with not enough homes to regions of the country like Teton County where loving families are waiting to adopt them. Many of the animals you'll see in our community have been flown by Dog Is My CoPilot and adopted through our rescue partners!

Jackson Hole Regional Horse Rescue

Old Bill's Fun Run Grant is the life-blood of Jackson Hole Horse Rescue. Without it we simply could not exist. In the past year we rescued 12 horses and found homes for most of them. Some will live out their remaining days in our care. Three horses died this past year, all related to old age. Almost all of the horses we take in are old and/or in poor health. As of April 30, 2021 we have 23 horses in our care. It is such a labor of love to care for an old broken-down horse and help make its remaining days comfortable and rewarding. You could call us an "Old-Folks-Home for horses."

PAWS of Jackson Hole

Funding from Old Bill's provides direct support for our community's pets and their people. In 2020, PAWS saw a drastic increase in the following programs due to the Covid Pandemic. We created the COVID Pet Fund \$8,000 donation that eventually grew in a \$90,000 fund that helped 588 pet owners that were struggling to provide basic pet care, and extremely challenging veterinary care situations. PAWS accepted every MedFund application during this time and raised our maximum payout for vet bills from \$350 to

\$500 (with an occasional \$1,000). We also decided to help pet owners by covering basic pet care - dental cleanings, routine check-ups, vaccinations, medications and the purchase of pet food and kitty litter. We were successful in our goal to support pet-friendly families so that they didn't have to relinquish the pets to local shelters due to a temporary financial setback due to COVID. So many pets were adopted during Covid and Paws was there to help spay and neuter over 1,100 local pets. We also saw a huge uptick in the use of our mutt mitt stations as people had to get out and walk their dogs during the pandemic. We went through more mutt mitt bags in 2020 than in any past year. PAWS was asked to provide pet-focused educational programs in several TCSD#1 classrooms through their CREST Program during the pandemic. Paws was able to reach hundreds of kids and there was quite a bit of excitement every time our staff walked into a classroom with a dog as a reward for previous good classroom behavior. The PAWS/TC Parks and Rec winter dog park and Mutt Mitt Stations along the pathways saw a huge increase in use as people yearned for a way to get outside and take care of their pet's needs. Dog trail ambassadors and JH Poop Fairies worked popular trails throughout the year engaging people (social distancing) and reminding them to pick-up after their dogs and protect our local waterways.

Arts & Culture

Art Association of Jackson Hole

The 2020 Old Bill's Fun Run grant provided vital support to the Art Association's Creating Hand-in-Hand Outreach Program, through which 880 children and adults were served by 815 hours of art education and art therapy. The funding allowed us to work with 36 partnerships and succeed in our goal to make art accessible to our local community. The grant also allowed the Art Association of Jackson Hole to offer scholarships for two local art enthusiasts to take a digital art class. The grant also allowed us to continue to offer safe programs such as photography and painting classes during the pandemic. Members of the staff also participated in professional development and received first aid certification with the support from the grant.

Cathedral Voices Chamber Choir

Old Bill's Fun Run is more than just financial support - it brings the arts & culture community together, in solidarity. Relationships among non-profit organizations grow stronger each year as we fundraise together, share booth space together, and collaborate to provide meaningful programs with a positive impact on our community. Thank you, Old Bill's, for providing a forum for the celebration and sharing of ideas, and for the connection and bonding we all need to grow together!

Center for the Arts

The Center's 78,000 square foot, 3 acre campus is home to 22 Resident organizations, and hosted events nearly 181 days last year. Hundreds of people of all ages work and participate in creative and educational activities at The Center. The Center maintains an exceptional, modern campus for Residents and community, and employs staff to support the arts and all the attendant activities. By administering the facility and providing support for Residents, The Center ensures that our community has access to the arts and culture are a central part of civic life in Teton County.

Dancers' Workshop

Dancers' Workshop uses Old Bill's funding to support artful lives! Old Bill's Fun Run funds support DW's general operating cost which supports The DW school, our robust presenting season, outreach programs, and wellness programming for our community. The impact of these funds is evident in the joy of our students, the professional quality of school productions, and the world-class dance companies we bring to Jackson. DW's programs reach a variety of Wyoming and Teton County residents including hundreds of students statewide, local K-12 students, and residents across the county that enjoy performances at DW and enroll in youth and adult programs at Dancers' Workshop.

Grand Teton Music Festival

Old Bill's Fun Run funds supported GTMF's programming in Teton County throughout 2020. Before the lockdown, GTMF presented 5 free concerts during Winter Festival and our community concert series, and engaged 70 students during our String Festival event. GTMF shifted to virtual programming and filmed 7 nights of performances in Jackson Hole, 2 concerts out of town, and held our scholarship competition online. GTMF supported the Systems of Education elementary program with musician school visits. Virtual community engagement included Backstage Pass, an interview series featuring Festival Orchestra musicians, and Music Forum, a series of interactive music education lessons for students.

Jackson Hole Chamber Music

Last year's Old Bill's grant will make an enormous impact on our operations for this coming September's festival. After having to cancel our series for 2020 due to the pandemic - we are regrouping for 2021 and plan to have our concerts again in a modified form. We will use the funds for funding the travel expense of the musicians and their instruments, as fares into Jackson Hole continue to increase and in order to continue to bring the highest caliber musicians to perform at our concerts we believe that providing travel support is essential. Funds will also be used to offset the cost of meals for the musicians at Antelope Ranch, the host of the concerts.

Jackson Hole Chorale

In our 2020 Fall season, the Chorale offered a free Christmas concert and the Singers Group performed at smaller events. With the pandemic, we discontinued in-person rehearsals and had no performances this Spring. However, Ron Fabry, Artistic Director did teach video lessons on music history, sight singing, and voice coaching posted online for members to stay engaged. The funding from Old Bill's is essential to our restart efforts to continue our 38-year traditions. We have customarily entertained 300 or more guests at free concerts and the numbers of singers and guests for members was growing. We were obligated to furlough our paid Administrative Choir Manager to save funds during stoppage. We have been working toward a restart with a shortened (never before done) Summer season and will perform a short concert in August if possible. Our singers, they are very anxious to return to music and entertaining our community patrons!

Jackson Hole Community Band

2020 was quite the year for performing music non-profits! We stayed home, but with the support we receive from Old Bill's we still made the music happen. We created three different performance videos "playing from home." These enabled us to keep our members active musically and to maintain our reach

within the community. We also have had weekly Zoom get-togethers throughout the pandemic to keep in touch with each other. With the support we receive from Old Bill's we plan to make the 2021 season and our "return to the stage" our best year yet!

Jackson Hole Community Radio

Funding from Old Bill's has supported KHOL's growing newsroom. Over the past year the station has diversified its programming, growing from primarily locally produced music shows with volunteer DJs to now airing a panoply of programming including locally and nationally produced podcasts, a local music hour, and news coverage in Spanish. KHOL's original reporting has also been picked up by partner stations across the West, including collaborations with the Rocky Mountain Community Radio coalition and NPR's Mountain West News Bureau. Our collaboration with the Rocky Mountain Community Radio coalition on fossil fuels recently won second place for public service reporting from the Society for Professional Journalists.

Jackson Hole Food & Wine

The funds enabled us to host two unique socially distanced events after having to cancel our regular Summer 2020 Festival and our 2021 Winter Fest due to Covid-19. In December, we produced holiday boxes featuring local products from Jackson Hole companies including Bunnery Granola, local coffee, candy from Mursell's Sweet Shop, Pig Candy, ROOTS Jam, S'mores Kits from Persephone Bakery and more. In March of this year, we produced Taste of Teton Village To-Go, which featured prepared food from multiple top restaurants, wine, local beers and spirits. The To-Go kits also came with flyers and marketing materials from all of the bag participants encouraging folks to support these businesses, and also information about Hole Food Rescue. The funds enabled us to continue to keep our organization going despite our cancellation of our festivals, which has allowed us to continue to support our beneficiary Hole Food Rescue. We were able to donate \$7000 to Hole Food Rescue in 2020 and an additional \$5000 already in March of this year and hope to continue to support them with another check later this year.

Jackson Hole Public Art

In 2020 JH Public Art collaborated with community partners to produce free outdoor art experiences. 6 Glow Nights works in Town and Teton Village highlighted Energy Conservation facts seen by over 200 people. Over 120 Moonshot 5x5 attendees granted the teen presenter with the Buzz Aldrin award. Ten WildWalls murals featured educational augmented reality about how to conserve water quality, downloaded by 5,000 viewers. 5 new, 2-sided ArtSpot installations were created by local youth and 1 emerging artist seen by 30,000 people daily. The Art Mobile delivered free art activities, food, and books to over 500 children and families during the summer and 200 children identified by TCSD as food insecure before the holidays. We provided consulting services to St. John's Health and Astoria Park Conservancy. Old Bill's enables JH Public Art to commission works that educate, spark hope, and spread joy with and for our community.

Jackson Hole Symphony Orchestra DBA Orchestra of the Tetons

Due to Covid we had to re-create the way we gathered to rehearse and perform. We did a small ensemble recording in the late Fall that we shared with Old Bill's donors. We continued our Christmas tradition of a shared gala with CVCC that featured the Jackson Hole Brass Quintet which we continue to sponsor, and our string players in multi day small ensemble digital recordings that we shared throughout the month

of Dec. We also ran a workshop on how to use click track for recordings and look forward to our first in-person concert this May at the Center for the Arts

Jackson Hole Writers

The funds from Old Bill's Fun Run in 2020 helped Jackson Hole Writers provide programming for writers of all levels of experience, guiding them through all stages of the writing process from initial creative impetus to publication. Four categories of programming achieved this impact. Workshops and Readings, open to all, emphasized engagement between participants and faculty writers ensuring strong skill development and community building. Writing Groups in multiple genres allowed writers of varying abilities to inspire and learn from each other in a supportive environment. Writing Camps for Middle-Grade Students provided immersive experiences in inspiration and craft for writers at the very beginning of their writing lives. The Jackson Hole Writing Conference, our flagship program, blended inspiration, community building, skill building, critique, and presentation to create a welcoming and professional atmosphere for writers. Hundreds of writers, from ten-year-olds to octogenarians, benefited from our programs in 2020.

Jazz Foundation of Jackson Hole

This was a difficult year for music and community-based organizations, but thanks to the support of Old Bill's Fun Run we have been able to hang on through these trying times. We plan to return to full in-person rehearsals this spring, and we will resume public performances this summer assuming it is safe to do so. This funding means the world to us and is the primary reason that we are able to continue exposing Jackson Hole to the wonderful tradition of Jazz music.

Musicland

This past year due to Covid-19 was challenging for our organization. Fortunately, the grant helped us with supporting a live stream recital in December 2020 and a live concert in March 2021 serving 40 families and their child students.

National Museum of Wildlife Art

The 2020 Old Bill's Fun Run Grant supported the Museum's operating expenses to enrich the arts and education in the Jackson Hole Community. In 2020 and during the winter of 2021 the Education department offered virtual field trips for K-12 students serving 135 children. Connection virtually was important in 2020; members and friends of the Museum were invited to web-hosted artist spotlight evening lectures to learn more about specific artworks in the collection. Also, Bisoncast, short videos about art, science, and nature, were created in 2020 by Museum staff. Another technology outreach employed by the Museum Education team is a Museum App & Audio Tour. From March 2020 - March 2021 there were over 2,200 users of this application. During the pandemic, Museum staff worked hard to continue supporting and engaging our community in appreciating wildlife and the arts.

Native American Jump Start

Native American Jump Start 2020 grant help bring 32 Native Americans to Jackson last September to film the upcoming WY PBS special (filmed at the Center for the Arts). This filming without audience paved the way for the May 21, 2022 upcoming live Native American performance of dance, culture, and education. We feel that both of these programs have and will help further Jackson's diversity and Native awareness

to help overcome the perception that Jackson is not Native friendly or Native sensitive. Beyond the cultural aspect, NAJS host Native interns at GTNP and NMWLA and seeks more internships locally.

Off Square Theatre Company

The unrestricted giving and compounded philanthropy of Old Bill's Fun Run was critical for our continued operations this past year. As a theatre company unable to gather a cast to perform for an audience or hold our premiere fundraising gala event, Old Bill's Fun Run provided much needed funding for our 2021 Youth Musical Showcase for 16 student performers this May. While reduced in cast size, the enthusiasm and gratitude of these student performers to create art in person again has been incredible and inspiring. Thank you for allowing us to provide them with this creative outlet after a very challenging and isolating year.

pARTners

pARTners develops and implements integrated art programming into K-12 school classrooms throughout Teton County. Our programming connects over 12 local artists with students and teachers. pARTners is vital to our community because it fuses creativity and self-expression with core subjects and gives students an opportunity to learn in a different way. This year was challenging due to COVID, but we were still able to implement 22 artistic projects over the school year to 1,900 students K-12. Lastly, we distributed over 200 free art kits to students in need over the Holidays. pARTners was flexible and used the appropriate precautions, so students could still safely participate in our current offerings.

Riot Act, Inc.

With our Old Bill's funding we were able to produce two shows during the pandemic. With these productions we had small in-house audiences limited to 20 or less. The live audience members wore masks, had temperatures checked, and were socially distanced in their seating. We were also able to procure equipment to live stream our productions to many more patrons. The live streaming allowed us to reach out to people in their homes, continuing to bring them great theater in this difficult time.

Targhee Music Foundation

We will be able to continue the Targhee Music Camp and provide music education for adults and children using scholarships including an emphasis on local scholarship opportunities. Targhee Music Camp will provide high level music education for students from diverse backgrounds, and classes are provided in American music at the 15th Targhee Music Camp.

Teton County Historic Preservation Board

The TCHPB's historic properties list compliments the new county LDR exceptions and incentives. Within 30 days of its inception, 3 properties applied for and received documentation of their historic status, leading to the permanent preservation of 2 dude-ranches and one historic residence. Administrative support is necessary to receive, process, and finalize applications.

Teton Music School

In the past year, Teton Music School served nearly 150 students in private music instruction (more than 2,500 individual lessons), group classes, and ensembles as well as partnered to provide music enrichment activities in TCSD elementary classrooms. With operating needs met, TMS was able to keep our focus on

our mission, bringing music education to youth and adults in our community both in-person and remotely. Beyond the direct benefits of music education, our efforts provided an opportunity for connection, exploration, expression, and humanity during the isolation and challenging circumstances of the pandemic.

The Russian Club of Jackson Hole Fund

Due to the Covid pandemic, we were unable to have any events. We did place an ad in the paper for the January 14th Russian Old New Year to inform the public of this Russian tradition and how it came to be.

Whit Press

Whit Press creates books that weave a rich tapestry of literary diversity that put words into action for the public benefit. Old Bill's funding supports project design, printing, communication outreach, workshops, and readings. Old Bill's helps us with utilities, equipment, rent, to pay local vendors, and local salaries.

WyoFile

With the help of Old Bill's Fun Run, WyoFile has informed and engaged the citizenry of Teton County and the Greater Yellowstone Ecosystem by producing factual, in-depth, public-interest journalism. With close to 150 stories from the decisions made in Cheyenne, Washington, Denver, and Houston that have direct bearing on Teton County's economic, civic, and environmental health to events unfolding in our own backyards, WyoFile has provided the community with the information it needs to participate in the democratic process, affect land and resource management decisions, and interact with civic institutions in the valley and beyond. Knowledge is power and WyoFile is proud to empower the community to set its own course and define its own destiny. The community demonstrated its appreciation for this service and relies on it even more; we grew our reporting output by more than 45%, and readership has grown by roughly 70% since 2019.

Wyoming Humanities Council

Wyoming Humanities continues to support the cultural economy and infrastructure of Teton County through grants, programs, and partnerships with many non-profits in our community.

Civic

American Legion, Jackson Hole Post #43

Provide High School Scholarship's Boy's State, Veterans Needs and Continue Monument updates.

Becoming Jackson Whole

Funds raised during Old Bill's Fun Run enabled Becoming Jackson Whole to boost community awareness of readily accessible tools that ease stress and build resilience. With the support of grant funds, we are 200 days into a successful outreach campaign, initiated in response to the COVID-19 crisis, that delivers daily doses of mindfulness practices proven to cultivate mental wellness. Originally conceived as a 100-day campaign, it has resulted in 130,000 email opens and many requests to keep going. We also offered a 21-day mindfulness challenge, through which nearly 400 community members logged more than 14,000 minutes building resilience by practicing mindfulness. We trained nearly 40 community members, primarily

mental health and social service providers on the pandemic front lines, in the research-backed Mindfulness-Based Attention Training (MBAT) curriculum and are dramatically expanding our capacity to deliver MBAT by training seven community leaders to teach the curriculum locally.

Charture Institute

The COVID-19 pandemic accelerated many of the trends rapidly shaping the future of Jackson Hole and the greater Tetons region, including increasing income inequality, increased pressure on workforce housing and community character, and mounting challenges to the region's environmental health. Thanks to the funding provided by Old Bill's Fun Run, Charture was able to keep abreast of these trends, evaluate their effects on the community, and work with local leaders to help develop ways to identify and address them. Put more succinctly, thanks to Old Bill's, Charture was able to continue its work to help the region continue co-thriving.

First Responders Support Fund

Old Bill's Fun Run grant assisted our law enforcement community by providing the funds to offer crisis intervention training, mindfulness training, and implicit Bias training.

Friends of the Jackson Mounted Patrol

The volunteers of the Citizens Mounted Unit, funded in part by Friends of the Jackson Mounted Patrol, impacted the community in four ways in 2020: (1) We gave a western feeling to the Town Square when on duty. Tourists loved us! (2) Volunteers on patrol set the example by wearing their face masks as a visual reminder to visitors to wear theirs. (3) We aided the Jackson Police Department by being an extra set of eyes and ears on or near the town square. (4) Our Citizens Mounted Unit was asked by the organization putting together a BLM-type of rally to assist in traffic control this past summer. The horses were well-trained and we had been schooled on crowd-work over the years. We created a positive image for law enforcement and those in attendance kept coming up to us and telling us that they were very appreciative of our service. What started out as an unknown-outcome and a bit scary, ended up being a very positive experience because of the horses and because of the great training we receive. Old Bill's allows our unit to purchase uniforms, equipment and training necessary to "Ride For The Brand" - our beloved Jackson Hole.

Girl Scouts of Montana and Wyoming Service Unit 174

The funds received from our Old Bill's Fun Run grant enabled Girl Scouts of Teton County to persevere through a tough year. COVID19 restrictions shut down any in-person meetings, although we were able to squeeze in an outdoor party at the end of October 2020 to celebrate our founder's birthday and Halloween while the weather was still nice. The grant enabled us to purchase a Zoom license so that troop leaders could stay in touch and have meetings. Because of COVID19, we missed out on several of our traditional annual events. Instead we looked to the future and focused on forming new troops for the fall of 2021. We had great success with our recruiting efforts and will be using funds soon to get two new troops started. We also used the funds to help unify our service unit by giving each registered Girl Scout and Girl Scout Volunteer a t-shirt. We held a design contest and the girls voted for the design they liked the best. We think they turned out great and really show our Girl Scouts of Teton County pride.

Global Ties Wyoming

We were able to nominate many Wyoming youth for Youth Ambassador positions at the World Expo Dubai, and also nominate Cultural Performers.

Jackson Hole Farmers Market

The Old Bill's Fun Run grant helps the Jackson Hole Farmers Market stay up and running to serve our community with fresh and local produce throughout the summer. Being able to operate during a pandemic last year and give back to the community through our non-profit highlight booth each Saturday and help each vendor keep their businesses open and thriving was a huge goal and win for us. Having these funds keeps us operating so we can provide a wonderful community event to Jackson Hole.

Jackson Hole Fire/EMS

The donations received from Old Bill's have a direct impact on approximately 80 volunteer Fire/EMS members across Teton Co. WY. With these funds we advance our education, recruitment, and retention, and we are able to work in a safe manner due to the purchase of new personal protective gear. This training, education, and equipment allows us to respond quickly and safely to all emergencies in Teton County.

Jackson Hole Kiwanis, Inc.

Kiwanis takes our responsibilities to the community very seriously. We annually award two (some years three) scholarships to graduating seniors who are members of the Key Club who have demonstrated outstanding volunteer work for the citizens of Jackson. We have extended this idea of scholarships to fund summer program memberships for children here in the Valley, through GAP and other non-profits that run summer programs. We usually spend the entire amount that we get from Old Bill's each year, on these types of scholarships, plus purchasing car seats as needed, through Public Health, and the Fire department. We regularly purchase several cases of diapers for the Cupboard to distribute. The school nurse has identified several children who need extensive dental work, and we have given, and are currently giving, money for this. An estimate the number of children served - perhaps 15 through the various scholarships, 6 in the dental department, 30 car seats, and many parents whose children are provided diapers. There are many under-served children in Jackson Hole, and our Kiwanis Club strives to meet.

Jackson Hole Police K-9 Auxiliary

Our grass roots organization could not serve the needs of our wonderful community without the ongoing support of Old Bill's Fun Run. Thanks to Old Bill's 2020, we have acquired and trained a new narcotic detection dog (#4!) that helps keep our local citizens and tourists safe from illicit drugs. Continued financial assistance helps with food, vet bills, and officer/K-9 continuing education in our ongoing efforts to improve law enforcement services provided to our community.

Jackson Hole Working

Funding from Old Bill's allowed Jackson Hole Working to continue to work to ensure small businesses and working families have a voice and a seat at the table.

Old Wilson Schoolhouse Community Center

In this very unusual Covid-19 year, Old Bill's Fun Run donations allowed the Old Wilson Schoolhouse to keep its doors open and preserve its reserve funds. The schoolhouse was able to keep our manager employed and our facility open for The Pumpkin Patch Preschool, The Wilson Community Baptist Church, and Wilson AA. Old Bill's Fun Run donations allowed us to pay for heat, water, sewer, yard care, plowing and many other expenses that didn't go away even though most of our rental income did.

Scouts BSA – Pack 67

13 volunteer Adult leaders served as role models and mentors for 10 male and female Cubs grades K-5. The Adult Leaders provided the youth with tools to learn skills that the Cub Scouts BSA program teaches. The program instills good moral character and leadership skills for life.

Scouts BSA – Troop 67

Prior years' funds were used to pay for educational campouts, district camp outs, updating gear and equipment. Buying books, recognition awards and uniforms. Our troop dinner at the mission and breakfast for members of First Baptist church on a few occasions. This has been an odd year due to COVID and while we needed to spread out we were still able to enjoy outside activities in a safe manner to shed the spread.

Scouts BSA – Pack 268

Funds were used to provide Scouts BSA - Cub Scout Pack 268 kids aged K-6 with a quality scouting experience. Tools, materials and equipment to support necessary work on rank requirements and scouting activities and training. Scouts BSA - Cub Scout Pack 268 offers a broad array of services to our community including annual Elk Antler Project and Scouting for Food.

Scouts BSA – Troop 268

Funds were used to provide Scouts BSA - Troop 268 kids aged 11-17 with a quality scouting experience. Tools, materials and equipment to support necessary work on rank requirements, merit badges and training. Scouts BSA - Troop 268 offers a broad array of services to our community, including annual Elk Antler Project and Scouting for Food.

Silicon Couloir

Silicon Couloir offers world-class programming for entrepreneurs and growth businesses in Teton County. The 2020 Old Bill's Fun Run grant funded our organizational and administrative support for our core programming, much of which transitioned to virtual due to COVID: free-to-ventures TEAMS mentor program licensed from MIT; our free monthly Chance Meetings networking events; vendor costs for our Annual Pitch Day which moved to a new format with over 1,000 virtual attendees; managing the Cowork Space, which was deemed essential by Teton County and which required significantly greater hands-on management and oversight; and, finally, the 2020 OBFR grant supported administration of our Angel Investor program, which retooled in order to maintain a program that continued to support local start-ups, entrepreneurial ventures, and our local economy. Overall, the OBFR grant contributes to diversifying Teton County's economy as well supporting a thriving middle class for current and future generations.

Teton Sheriff's Auxiliary, Inc.

Operational and training equipment, training, uniforms, and educational programs would not have been possible without the donations to the Teton County Sheriff's Auxiliary.

Conservation & Environment

Astoria Park Conservancy

With the support of over 200 families during Old Bill's, Astoria Park Conservancy welcomed over 10,000 community members back to this essential space. With a commitment to equity and inclusion, donations from Old Bill's allowed us to open our doors with a lower entry fee for local visitors and create an accessible space for fostering connections with neighbors and nature at a time when it was needed more than ever. Funds were used to support the opening of the hot springs amidst the challenges of COVID, launch a pilot program in partnership with Voices JH and Coombs Outdoors to bring underserved populations to Astoria, and to begin planning for the development of the phase-two 95+ acre park. We are grateful for the support of the co-challengers, the Community Foundation, and our growing community of local supporters.

Bridger Teton Avalanche Center Foundation

This funding enabled the avalanche center to handle a huge increase in demand for local avalanche hazard information and education. Contacts to the avalanche hazard resources provided by the center increased from 2.5 to 4 million during the 2020/21 winter season.

Craighead Beringia South

The funds we received from Old Bill's in 2020 were used to support our ongoing wildlife research efforts in Teton County. Specifically, we used the funds to support our research projects on species of conservation concern including identifying nest sites and productivity estimates of Golden Eagles in Teton County, using non-lead ammunition distribution programs, and monitoring the local carnivore population. Wildlife research is the foundation of effective wildlife conservation and we used the funds from Old Bill's in 2020 to build upon the foundation of wildlife conservation in Teton County.

Energy Conservation Works

Exceeded \$1.5 million in total residential and commercial energy loans; increased Green Power Participation by ~26%; saved >3,800,000 through new conservation projects (more than 34,600,000 kwh cumulatively); secured \$750,000 in funding to continue ECW's Home Energy Loan Program; partnered to fund START's purchase of eight 100% Electric Buses; funded St John's Health Full Facility Energy Audit, efficiency upgrades, and electric vehicle charging stations; distributed >4,000 Home Energy Kits to Lower Valley Energy members; partnered to launch the 'EV Experience', electric vehicle loaner program; joined the Mountain Towns 2030 Net Zero Solutions Project.

Environmental Health Trust

This year we pivoted to online education on why and how to use technology safely during the pandemic, hosting online events with expert scientists and expanding YouTube videos. We launched the Jackson Hole Environmental Health Film Festival to inspire with powerful documentaries. We continued our work

educating teachers, parents and local health professionals through social media and informational newsletters extending to an audience of approximately 18,000 persons. We are championing efforts to protect the wilderness, sharing the latest science related to the increased energy consumption of 5G, and impacts to trees, bees, and wildlife. We submitted extensive opposition to the National Parks to the planned telecommunications expansion in Grand Teton National Park and Yellowstone. We are coordinating efforts with Public Employees for Environmental Responsibility (PEER), and are part of a federal lawsuit that will have ramifications for all national parks.

Grand Teton Association

GTA used its funds to support the Snake River Fund through the Bridger-Teton National Forest through continue education for the public on how to recreate responsibly through printing publications and general information.

Grand Teton National Park Foundation

Funding from Old Bill's Fun Run 2020 enabled Grand Teton National Park Foundation to provide financial support for projects and programs that enhance and protect Grand Teton's treasured resources. Initiatives supported by Old Bill's included wildlife and natural resources research, youth programming, volunteer education and outreach efforts, Snake River access improvements, and preservation at the Mormon Row Historic District.

Greater Yellowstone Coalition

Teton County is a key region in the Greater Yellowstone Ecosystem containing the Bridger-Teton National Forest, Grand Teton National Park, rare and imperiled animal species such as grizzly bears, bison, wolves, and trout, as well as some of the nation's most pristine waters. The funding from Old Bill's has allowed us to engage in multiple activities that help us to achieve our goal of preserving and protecting the lands, waters, and wildlife of this region. Specifically, we have done work creating wildlife crossings, preparing for the upcoming Bridger-Teton National Forest land-use planning process, restoring secure wildlife habitat, protecting rivers, and reducing conflict with grizzly bears to keep bears and people safe.

Jackson Community Recycling/Teton County ISWR

Donations supported measurable progress on the Road to Zero Waste. Initiatives include: the implementation of a new food waste composting program, the development of a recycling app, resources like the virtual tours for the community during Covid-19 limitations, and a new artist in residency program. ISWR Reports the following waste diversion achievements during FY21 to date: collected 3,283 tons of recyclables from the community, recycled and properly disposed of 156,520 pounds of Household Hazardous Waste, continued Post Office recycling, achieved a low 2.82% contamination rate among recyclables, and collected over 600 reusable water bottles to support the Jackson Hole Middle School.

Jackson Hole Center for Global Affairs

Support from Old Bill's Fun Run enabled JHCGA to forge ahead despite strong headwinds in 2020 with community leadership efforts in global climate change initiatives. These initiatives included (1) creation and planning of the Jackson Hole Global Forum 2020: Climate Change and National Security; (2) creation of a global network bringing public and private sector leaders in Teton County together with local and state policymakers in Wyoming and other coal producing regions to consider means of responding to climate

change; and (3) initiation of discussions on climate action involving Wyoming and other coal-producing states with coal-producing provinces. These initiatives place Jackson Hole in the middle of policy discussions and dialogues on climate change involving potentially over 200 public and private sector leaders in the U.S. and beyond.

Jackson Hole Conservation Alliance

We continued to fight bad ideas in the valley, like the expansion of Snow King. We also are running a campaign to empower and inform the community about the neighborhood pan in Northern South Park. We graduated another round of Conservation Leaders.

Jackson Hole Ducks Unlimited

As in years past, JHDU has been working in partnership with Ducks Unlimited Nationals, and the Wyoming Game & Fish Department to restore the South Park Feed Grounds. The groundbreaking for that project was postponed from August 2020 due to Covid, and an event announcing that new date for groundbreaking is scheduled for June 12, 2021. Old Bill's Funds have been instrumental in bringing this project to fruition, even if it has been postponed, and we remain excited about that project, and the follow up project in partnership with Ducks Unlimited Nationals and Astoria Park Conservancy. The past years' partnership with Ducks Unlimited National Committee continues with the design phase work being commenced on the new project in the Snake River Canyon, and JHDU expects to play an active role in the restoration work at the South Park Feed Grounds.

Jackson Hole Land Trust

Last year's Old Bill's Fun Run grant directly supported JHLT's land protection, stewardship, and community conservation initiatives in Teton County. Thanks to the support of donors and Co-Challengers, JHLT was able to steward 57,000 protected acres, pursue new protection projects, and create connection through virtual programming. Community conservation properties, including R Park, the Greenspace on the Block, and newly protected acreage on High School Butte ensure community-wide accessibility to open space.

Jackson Hole Wildlife Foundation

In 2020, Old Bill's Fun Run supported 100 Moose Day volunteers, banding of 40 different bird species at our GTNP/Kelly banding station, installation of 2 digital radar speed signs in Wilson, the creation of the Being Wild Jackson Hole outreach campaign, new Nature Mappers from Teton County Wyoming and Idaho, multiple fence removals on public and private lands, the monitoring of 112 nest boxes, and extensive recreation and wildlife data collection with the goal to inform land managers.

JH Climate Action Collective

JH Climate Action Collective used funds raised to launch a climate action plan process for Teton County. We assembled a group of nonprofit leaders and public officials who are actively working to produce a Climate Action Plan(s) for the region. We are working with Legacy Works who serves as project manager under the leadership of Alex Norton. Our process includes state of art planning tools to produce an actionable plan to address climate change using social equity as one of the organizing principles.

Legacy Philanthropy Works

The 2020 Old Bill's Fun Run grant enabled us at LegacyWorks to directly expand our impact right here in the Tetons, serving to help foster trust, relationships, capacity and courage, and setting the stage for bolder collaborations across sectors. These funds were critical in the initial development of the foundation of a climate action framework and a Jackson community character conservation initiative alongside an outstanding group of partners. LegacyWorks continues to help our Teton communities, agencies, nonprofits, and funders achieve important conservation and resilience goals.

Meg and Bert Raynes Wildlife Fund

Nine of the thirteen grant requests were fully or partially funded. These research projects increase the knowledge of regional wildlife. Outcomes could be used to protect the species. Focus is on relevant education, research, community involvement, and habitat protection for wildlife.

National Parks Conservation Association

Old Bill's Fun Run has been critically important to the success of the Grand Teton Field office in support of our projects and campaigns that preserve the natural and cultural values of Grand Teton National Park. Funds raised are used to enhance the park's mission through NPCA's informational and educational campaigns and on-the-ground project work. Support through Old Bill's allows us to focus on projects that directly benefit the community and the park. Old Bill's funding supports NPCA's overall program capacity and important campaigns to preserve migration corridors, allow for safe wildlife crossings, and advance the Zero Waste partnership that has diverted tons of trash from the park and landfill each year. Our national parks preserve America's most precious natural resources and cultural and historical heritage. Grand Teton National Park is our county's crown jewel, beloved by residents and visitors, and a valuable asset to preserve and protect.

Northern Rockies Conservation Cooperative

The Old Bill's Fun Run grant is essential to NRCC's main areas of focus: science communication, environmental education, storytelling, ecological monitoring, science-informed management, and community conservation. These funds enable us to conduct the biennial Jackson Hole Wildlife Symposium, organize leadership workshops and public dialogues throughout the year, and support 39 active projects. Our work includes amphibian, avian, and plant monitoring; predator-friendly ranching; climate impacts; citizen science; and public outreach. Together, this work helps our community achieve coexistence with wildlife amidst growing social and ecological change.

Protect Our Water Jackson Hole, Inc.

In 2020, we completed the transition from Friends of Fish Creek to Protect Our Water Jackson Hole to serve as a powerful advocate for protecting and restoring the surface waters and groundwater in Teton County, Wyoming. Over the last year, Protect Our Water JH's primary focus has been to change how Teton County manages wastewater in the sensitive watersheds of Jackson Hole. To accomplish this, we focused on three areas to have the most immediate impact. First, educating the community on the adverse effects of poor wastewater management and building public support for improved wastewater treatment. Second, providing matching funds for county-wide wastewater planning and, lastly, strengthening Teton County's regulations for septic systems. Protect Our Water JH has successfully achieved these short-term

goals. Along with the Teton County government, we have taken the critical first steps in attaining meaningful protections for water quality.

Rocky Mountain Elk Foundation Jackson Hole Chapter

RMEF was able to secure the Great Elk Tour Interactive Trailer to help educate on elk, their habitat and needs during Elkfest 2021. RMEF will also help study elk and wolves to see how the interaction disperses the critters during the migration and winter range. RMEF will also bring Aspen Days to Teton County where 40+ of Wyoming's best habitat biologists will come for 3 days to work together to help educate best practices to continue having quality habitat through Aspens and healthy stands of Aspens.

Save Historic Jackson Hole

Old Bill's Fun Run grant constitutes a majority of our organization's fundraising efforts for the year.

Sierra Club

Through our work to benefit Teton County in 2020, we supported more than 300 youth who normally would have attended Blackrock Field Camp with pandemic relief supplies. We virtually educated more than 250 residents and supported their participation in administrative advocacy on Teton County projects. Our supporters' investment in our work in Teton County is essential to helping us achieve our conservation goals in northwestern Wyoming, and we look forward to resuming in-person advocacy with on-the-ground staff and a local office when it is safe to do so.

Snake River Fund

Old Bill's Fun Run funds have supported our efforts to protect and promote stewardship of and public access to the Snake River watershed. We are enhancing the Snake River by supporting native trout fishery habitat restoration and promoting sound stormwater and wastewater management. We are monitoring western Wyoming's Wild & Scenic Rivers document trends as they relate to changes in recreation use, climate, and water quality. We are leading a campaign to improve river recreation safety by underwriting clinics for a variety of user groups. Finally, funds are used to improve staff and board effectiveness through professional development locally, regionally, and nationally.

Teton Back Country Horsemen

TBCH assisted the Bridger Teton National Forest in clearing trails in the Willow Creek area. We also placed trailhead signs about how to interact with horses. It is part of our ongoing efforts to educate trail users about safety around horses.

Teton Botanical Garden

Due to COVID 19 restrictions our actual number of community members served may be lower, but we continue to service Teton County Schools in our growing project Edible (+150 Students) and therapeutic gardens at JH Community Counseling Center and Sage Living Center (+500 clients). Our major project is a collaboration between National Museum of Wildlife Art, Teton Conservation District, Rocky Mountain Conservation Alliance and The Nature Conservancy to create the Greater Yellowstone Botanical Trail (served +2000 visitors and locals).

Teton Raptor Center

Thousands of avian and human lives were touched through new virtual programming that was created to reach audiences during the pandemic and by other services provided by TRC. There were 153 live raptor education programs for 5,274 participants of all ages; 14 raptor research projects conducted or that are ongoing; and 136 injured, ill or orphaned birds cared for in TRC's rehabilitation clinic. Volunteers donated over 5,974 hours of service. Over 1,700 Poo-Poo Screens were distributed to protect cavity-nesting birds throughout the US and Canada.

The Cougar Fund

2020/21 was obviously a challenging year for the whole community. The stability and encouragement that the generosity of Old Bill's Fun Run Sponsors, donors, and the Community Foundation provided in these uncertain times allowed The Cougar Fund to be well prepared for the eventuality when measured and well-regulated educational opportunities arose again. The ability to have designed and augmented many new programs, and to be ready at the drop of a hat to present those, either online or in person, to willing and enthusiastic participants was a joyous result of Old Bill's legacy to our community. The Cougar Fund continues to reach children with enriching environmental education programs. Old Bill's has given us the ability to redesign methods of outreach to adapt to present day concerns for health and safety without wavering in our core values and mission.

The Nature Conservancy in Wyoming

Old Bill's empowered TNC to shed light on the community of Jackson Hole during the darkness of the pandemic. Wildflower Watch continued to leverage community scientists to monitor the seasonal timing (phenology) of important wildflower species in Grand Teton National Park. Although we limited outdoor groups to <10, we engaged >50 volunteers, and mentored two high school seniors, Leo Harland (JHHS) and Daniela Garcia (JHCS), both accepted into college and inspired to pursue conservation. Neighbors to Nature, along with partners, studies the interactions between recreation and wildlife in Greater Snow King. In 2020 we collected over 700,000 images that are sorted by both Artificial Intelligence and hundreds of community volunteers. Lastly, Fire on the Mountain, sparked by the 2019 Wildlife Museum Fire, is a collaboration between many partners to create a botanical tour at the National Museum of Wildlife Art and restore the burned hillside, with the goal to inspire over 65,000 visitors/year.

The Riverwind Foundation

Old Bill's Fun Run provided funds for supporting the Jackson Hole & Yellowstone Sustainable Destination Program to (1) implement the Business Emerald Sustainability Tier (BEST) program for training and certifying those businesses and organizations most committed to sustainability, (2) publish the Green Matters in Jackson Hole sustainability newsletter distributed to over 7,800 subscribers, (3) maintain EarthCheck Sustainable Destination Certification for Jackson Hole, (4) research and report on plans and indicators for and solutions to visitor and resident impacts on our environment and community, and (5) conduct the RRR Business Leaders Program on behalf of Teton County. Positive community impacts include reducing energy, fuel, water, and waste, and carbon emissions; improving air and water quality; reducing traffic and parking congestion; protecting wildlife and wild lands; and growing the next generation of green leaders.

The Wilderness Society

Old Bill's helps The Wilderness Society in our mission to protect landscapes on the 3.4-million-acre Bridger-Teton National Forest; protect the public ownership of public lands; and provide agencies with public land management recommendations. Last year we formed a group of conservation and outdoor-recreation advocates whose function is to collaboratively develop conservation and recreation proposals as input for the Forest Service as it begins the revision of its forest management plan. We also work on projects of local interest such as the Snow King Master Plan and protection of ungulate migration corridors. Old Bill's donations significantly enhance our ability to build coalitions with multiple local grassroots and grassstop organizations and helped us develop relationships with local, state, and federal agencies. With your support, our goal of ensuring lasting protection for public land, will impact over 22,000 Teton County residents and many future generations.

The Wyoming Outdoor Council

Old Bill's support allows our policy, legal, and science staff to advocate with state wildlife managers and decision makers against development proposals in big game migration corridors that provide seasonal habitat for wildlife that live in Teton County. It also supports our work to find a solution to the serious water quality problem in Teton County. We persuaded local and state authorities to develop a comprehensive Snake River Aquifer protection plan. In the plan, the county recognizes the public's right to clean, affordable drinking water and the importance of the aquifer. The plan commits the county to monitor water quality, protect public water systems, and update source water assessment and protection plans. Funds also support our coalition work to prepare for the new Bridger-Teton revision plan. We are working to protect swaths of the forest from industry use in order to protect conservation values today and for future generations.

Trout Unlimited – Jackson Hole Chapter #05 I

Old Bill's funds remain essential to the Jackson Hole Chapter of Trout Unlimited's efforts to conserve, protect, and reconnect watersheds within Teton County through youth and community education, outreach and project work. In addition, OBFR funds support a full-time dedicated staff position (Snake River Headwaters HRI) in collaboration with state and national TU organizations. OBFR funds supported conservation initiatives in on Snake River Ranch and South Flat Creek in addition to the purchase of an electrofishing unit that enabled enhanced conservation efforts through fish rescue.

Vista 360°

Old Bill's Fun Run 2020 donations support Vista 360°'s new Global/Local program, which brings global art and design leaders to our community to support our work toward the UN Sustainable Development Goals 2030 Agenda. In our first Global/Local project, we are working with Land Art Generator Initiatives to bring their idea of blending art and design with renewable energy generation to create beautiful public art that helps to meet the energy needs of our community. Their work integrates the transformation to renewable sources into the fabric of the community. First phase of this multi-year collaboration is the creation of a Land Art Generator Solar Mural in a highly-visible location in Teton County, using a high-tech graphic film laid over solar panels. The project also includes a year-long effort to encourage households to join the Lower Valley Green Power Program. Community design workshops will take place in July.

Wyoming Untrapped

WU monitors trapping incidents, trail use, WGFD meetings, and contacts the appropriate agency when needed. WU petitioned WGFD to investigate trapping issues and proposed safety measures including trap-free areas and prohibition of exceedingly dangerous traps. WGFC followed through, creating an internal committee to investigate. WU used the Public Information Act to review WGFD decision-making models. Concerned that the population monitoring methodology use was not based on best-practices, WU hired two biologists to peer-review WGFD reports and submit recommendations. WU then worked to get this information published in industry journals. WU's Trapping Incident Map (TIM) provides information and comfort to victims of accidental trapping. Sophisticated maps show details about each incident. Without TIM, incidents are not tracked and victims are not publicly recognized. The Untrap Pack provides a toolkit facilitating the release of dogs/people after accidental trapping. Packs are significantly discounted, subsidized with private donations, business partnerships, and assembled by volunteers.

Wyoming Wetlands Society

The Wyoming Wetland Society was able to use Old Bill's grant monies to benefit the community with a new kiosk sign at Boyle's Hill to provide information on Trumpeter Swans and our programs. We were also able to fund a floating island for Trumpeter Swan nesting at the National Elk Refuge, preventing that pair from having their nest flood again, and resulting in a successful nest of 5 cygnets in 2020 and potential use for many years to come. We installed, upgraded, and provided nesting materials for many other nest sites throughout the County. Old Bill's funds enabled us to purchase and plant bulrush and sedges for improved habitat in wetlands in the area, and increased nutrient absorption from waterways. We relocated beaver from local private lands when they were causing flooding and damage, and brought them to National Forest lands such as the Upper Gros Ventre where they continue to improve water retention on the land at vital headwater areas. Our efforts benefit not just swans and beaver, but they focus on improving the wetland ecosystem for all users, including humans and future generations.

Wyoming Wilderness Association

With the generous support of Old Bill's co-challengers and donors, Wyoming Wilderness Association (WWA) has been able to grow our impact in Teton County, WY significantly despite the hardships that came with the Covid-19 pandemic. From launching a stewardship program that has involved over 50 volunteers in collecting National Forest required data in the Wilderness areas of Teton County, to working collaboratively on the upcoming Bridger-Teton Revision Plan to ensure necessary groundwork is completed when the process begins, to strengthening curriculum and systems for our high school program, Youth Ambassadors for Wilderness. Old Bill's support is the backbone of WWA's Teton County efforts, and we thank all those involved for your support!

Wyoming Wildlife Advocates

Last year was challenging to say the least. In a time of uncertainty, funds from Old Bill's offered us a chance for stability to fund our most important programs. We were able to provide over 5,000 copies of our wildlife guide and also get the graphic design completed for our Spanish version of the wildlife guide which will be released in 2021. We seek to ensure all members of our community have the tools and access to learn more about the wildlife that we share this place with. Having the resources from Old Bill's has enabled us to provide support for our staff who speaks for the voiceless through public comments representing our more than 12,000 members.

Wyoming Wildlife Federation

Old Bill's funding facilitated a wide breadth of conservation efforts that are pertinent to Teton County outdoor access, community education, the health and well-being of critical wildlife habitat and herds, and feeding Teton County residents facing food insecurity with excess game meat. This funding was filtered right back into Teton County and the heart and soul of Wyoming; wildlife and wild places!

Yellowstone-Teton Clean Cities

Last year was our 9th year offering the Sustainability Series and we again offered the program at noon, reaching a different audience than the first 6 years of the program with a total of ~200 attendees throughout the entire series. These funds have helped us continue our fleet outreach, including supporting grant applications with Grand Teton National Park and others, each of which received funds to replace old diesel vehicles from operations.

Education

Boundless: Opportunities for Children

Old Bill's Fun Run provides the most significant fundraising opportunity for Boundless. We depend on Old Bill's Fun Run, not only for fundraising purposes, but for building relationships and community engagement. Approximately 50 children and 20 lesson providers benefited from Boundless in 2020. The pandemic caused a decrease in participation (65 to 50 participants) but those numbers are growing again now that a vaccine is in place and in-person learning is available. Old Bill's provides us support that keeps our children and instructors thriving.

Charles Reid Schouboe Memorial Scholarship

The moneys generated by Old Bill's go directly back to the community through scholarships awarded to students from Teton County.

Children's Learning Center

Old Bill's Fun Run is Children's Learning Center's largest annual fundraiser and "friend-raiser." With support through Old Bill's, we continued providing low-cost, high-quality, inclusive childcare for local families across the economic spectrum (40% of CLC families receive tuition assistance). We served over 1,000 children through a continuum of early education programs, including Head Start, Early Head Start, and Special Education. We also provided more than 700 free developmental screenings and served nutritious, home-cooked meals and snacks to 170 children daily.

Chris Hodges Memorial Fund

We were able to impact the lives of four (4) very deserving graduating high school seniors from Teton County by providing a scholarship on the amount of \$2,000 each.

City Kids Wilderness Project

Through Old Bill's, 130 City Kids youth, ages 11-18 experience ranch camp and local internships, learning outdoor skills, teamwork, preparation, and goal-setting. These experiences translate into critical life skills

that expand their sense of personal possibility. 97% of City Kids program graduates also graduate from high school and 92% enroll in college, earn a GED, or pursue other vocational programs.

EAA Chapter 1049 Inc.

We have provided a local high school student the opportunity to achieve their dream of becoming a Private Pilot.

Education Grants and Scholarships Foundation

The funds raised through Old Bill's have enabled us to offer Transcendental Meditation at a reduced rate to dozens of local individuals with financial need, to offer remote enrichment, and to maintain the necessary facilities to provide our services.

Erin's Fund

Last year's OBFR grant was our biggest ever... which allowed us to award three, one-time scholarships of \$4,000 this Spring 2021!

First in Family Jackson Hole Scholarship

The Old Bill's Fun Run Grant funded 4-year college scholarships for 11 first generation students with financial need from Teton County. In addition, First in Family provided college counseling to 5 high school seniors and mentoring for 18 individuals with no family history of higher education.

Fund for Public Education – Teton County, WY

No one could have anticipated the enormous impact that COVID-19 had on our community, and especially our schools. Old Bill's funds enabled us to provide emergency support to the school district throughout the pandemic, while also ensuring that we maintained the many programs that students look forward to in a "normal" school year. Thanks to our generous Old Bill's donors we helped the district serve over 200,000 free meals to local kids, provided free internet access to over 150 families in need, provided free books to more than 1,500 elementary and middle school students to promote literacy, funded professional development for dozens of teachers in specialized areas like ESL and early literacy, and co-administered more than \$700,000 in scholarships for over 120 local seniors. None of this would be possible without the support of our community. Thank you!

Geologists of Jackson Hole

Work in local schools to support teachers and provide education about the physical world about us. Bring speakers from regional universities and other organizations to speak twice per month about research related to our physical world, from the center of the earth to the literal end of the universe.

InterConnections 21

Funding from Old Bill's enabled IC21 to provide international educational opportunities to local students and community members. Now more than ever, we need to connect with other people and places in an increasingly globalized world. IC21 engaged over 100 students and educators from eight regional schools in critical debate and collaborative problem solving at the 15th annual (and first virtual) Teton County Model United Nations (TCMUN) conference. More than 150 community members attended a free public

lecture by Dr. Nadia Oweidat, a University of Wyoming graduate originally from Jordan. We continued our national Model UN conference success by winning multiple individual and team awards at virtual Model UN conferences. Our students attended four national virtual conferences, extending the Model UN "season" into a year-round activity. The global pandemic has highlighted how critically important our work is by fostering a greater understanding of our interconnected world.

Jackson Hole Children's Museum

Our Afterschool and Summer Camp programs provided out-of-school childcare, educational programs, and social-emotional development opportunities to over 300 children in the last 12 months, a critical service to our community during the pandemic. In 2021 we expanded these programs to serve an additional 45 children and are adding Kindergarten readiness programs and other services in the coming months. The Museum space has also served as a safe space for families to spend quality time together outside of the home, another critical but limited resource in our community. We continue to prioritize supporting healthy parents, families, and children through our hands-on exhibits and public programming.

Jackson Hole Classical Academy

Old Bill's funds are directed towards the Tuition Assistance programs at the Academy. The Tuition Assistance programs are need-based to help lower annual tuition costs to families. During the 2020-2021 school year approximately 1/3 of the families received a portion of the \$300,000 allocated to this program. The Tuition Assistance program is an important part of helping the Academy have a socially and economically diverse student body. The Academy does not discriminate based on gender, race, color, national or ethnic origin in the administration of its admission policies or tuition assistance. The enriching high-quality education that the Academy offers is a beneficial education option for our community.

Jackson Hole Community School

With funds from Old Bill's 2020, JHCS was able to admit students whose financial barriers would have prohibited them from attending our school. These students are well prepared for college, access college scholarships as part of our college prep program, and become more integrated into our community through clubs, internships, and community service requirements.

Jackson Hole Driving Foundation

The Jackson Driving Foundation started a little kids' driving school in 2020 and gave instruction to students on rules and signs of the road.

Jackson Hole Historical Society and Museum

In 2020, the JHHSM safely adjusted services in response to the COVID pandemic, including developing specialized small tours, providing critical community educational support, and enhancing our digital resources. 3,302 visitors participated in guided museum and historic downtown walking tours. One review stated, "We went on the recommendation of others and were very pleased with the exhibits filling us in on key history of the valley, worth the visit!" JHHSM led 43 youth programs with 872 students, including summer day camps, field trips, and lessons for both homeschool families and TCSD classrooms. JHHSM was able to host 13 virtual adult education programs with 815 participants. JHHSM assisted 188 researchers in 2020, a 30% increase over last year. JHHSM converted the Mountains to Manuscripts exhibit

to an online platform, expanded the online digital collection database, created a digital COVID archive, and grew educational platforms by 50% with new subscribers and followers.

Jackson Hole Ski Patrol Memorial Scholarship Fund

Old Bill's Fun Run grant allowed us to award college scholarship funds to a diverse group of seven local students whose future educational interests differed but their desire for higher education was resolute and purposeful. Their dreams and goals were bolstered by our financial assistance.

Moose Corner Children's Academy

Grand Teton's youngest explorers are building a knowledge and understanding of the world around them. These children are using innovation, construction, art, music, dance, building, writing, science, body, and soul... to make their own theories to explain how their world works.

P.E.O. Chapter BG

We were able to award 14 scholarships to local residents, and will continue our outreach with CWC. We are excited to be recruiting new applicants as COVID restrictions relax, and are renewing contact with different organizations, such as CWC. Also, we will continue to reach out to those in need within our community. We strive to remain in contact with our applicants.

Rotary Breakfast Club of Jackson Hole

Old Bill's funds allowed us to support the Central Wyoming College Bridge to College and Career Program, which supports and nurtures students in the gap between high school and college or college and their career.

Rotary Club of Jackson Hole Foundation

Quality Educator Grants support teachers in continuing education and specialization in special fields of interest. Scholarship dollars are leveraged with money raised by the club through Casino Night and roughly \$200,000 is given away each year to amazing students in our community. These students come from all the schools in the area, including the high school, Summit Innovations, TSS, JH Community School, and JH Classical Academy.

Rotary Supper Club Charitable Association

With the added Old Bill's funds, our club was finally able to complete the purchase of the \$37,278 simulation trauma care training dummy for the JH CWC Nursing School Program. In addition, we chose to support the dedicated work of the JH Middle school Latina Girls program and the Children's Museum programs that provide opportunities to further education and social development of children.

Region 5 B.O.C.E.S. – C-V Ranch

C-V Ranch is continuously looking to the future and remains committed to improving and enhancing the lives of our students. With the help of Old Bill's funds, we are able to provide a multitude of activities for the 31 students we've served, ranging in age from 9 to 18 years old. Activities ranged from art lessons twice per week to supplies to maintain and repair C-V bicycles in order for students to engage in outdoor activities. During the pandemic, funds were used to purchase residential activities such as games and art

supplies. In the school setting, funds were used to purchase online classroom subscriptions, such as Scholastic, which helped increase student access to books and magazines. We can't thank Old Bill's enough for everything that it has done to help our organization.

Soroptimist International of Jackson Hole

Funds were used to support education of 6 women and girls, and organizations that enrich women.

Teton County Library Foundation

What a relief to valley nonprofits that Old Bill's funding came through yet again in 2020! Like many organizations, the library had to reimagine and revise how to provide vital services and programs to constituents of all ages at no cost to them. Even within COVID constraints, Old Bill's funds supported the library in providing the following and more: 95,685 digital downloads & over 58,000 wi-fi use sessions; over 18,000 uses of online databases; 1,886 books & 6,338 lunches given away in partnership with Sprout Mobile; 92 Adult programs and 90 Youth & Teen programs, provided by the Jackson & Alta branches; and 373 Outreach (off-site) events, reaching a total of 30,358 community members. Popular offerings included online & outdoor story times, Spanish radio programs, grab-and-go craft kits, drive-in movies, and online programs, such as book clubs, voter forums, story slams, and author presentations.

Teton County 4-H Council

These funds allowed us to fund fair awards for youth members. It also supported building repairs due to a flooding issue, and reconstruction of our basement into a maker-space to open further future learning opportunities for Teton County youth.

Teton Literacy Center

Funds were used to provide tutoring, enrichment, and family literacy services to children and families in Teton County, including hybrid educational opportunities provided during the pandemic. Funds provided direct services to children (preschool-high school age) and their families, supported staff salaries, purchased instructional materials, funded lesson planning and curriculum development time and supported professional development. Programs provided included: afterschool clubs K-8th grade, afterschool tutoring, volunteer training and workshops, preschool classes, family literacy events, parent workshops and classes, and home visits. TLC provides integrated family-centered programs that combine tutoring, enrichment, and family literacy services to children and parents. TLC is unique in providing the free resources, giving families the opportunity to increase their literacy in a safe, family-friendly environment. TLC served 465 students last year through tutoring, after school clubs and workshops, summer camps, literacy small groups, preschool classes, parent programs, and family literacy activities. Over 1,700 books were given to children and families to build at home libraries. We had 155 volunteers working with us and 100% of those volunteers surveyed expressed that they felt successful in improving their student's literacy skills and wish to continue tutoring.

Teton Science Schools

At Teton Science Schools students experience the world to understand the world and change the world for the better. Typically this occurs through in-person, hands-on, project-based and place-based learning. However, last year, given the impacts of COVID-19, TSS needed to adapt in order to remain relevant and supportive of the students we serve. With the support from community members through Old Bill's Fun

Run TSS has been able to persevere throughout the pandemic and continue offering transformative learning experiences (some via a modified, in-person approach, and others through virtual programs) for local community members and for learners from all over the world.

Teton Valley Ranch Camp Education Foundation

The funds raised in last year's Old Bill's Fun Run supported TVRC in being able to move through the negative impacts of Covid-19 on our business. We also instituted a new Teton Co. focused scholarship that allowed one camper to attend in our abbreviated 2020 season (originally \$19,000 in scholarships were awarded to Teton Co. kids but most chose not to attend due to Covid-19). This year to date we've extended another \$6,200 in scholarships to local Jackson children. We've also been able to continue to support community businesses that are key partners with us providing our programming to children. And are developing further relationships with organizations like GAP to build on our scholarship offering for 2022.

The Billy Frank Memorial Scholarship

In 2020 we provided (8) \$1500.00 scholarships to graduating Teton County High School seniors to further their education at out-of-state colleges and universities. These students were selected based on their response to our essay question provided in our application. They each showed a level of maturity, compassion, ambition, and drive to move forward with their educational goals and to give back to society in a meaningful way.

Womentum, Inc.

Every year, Old Bill's Fun Run grant money provides Womentum the funds necessary to keep our organization vibrant and able to serve our community with personal and professional development opportunities for women. While 2020 was packed with challenges, the grant money from Old Bill's Fun Run helped Womentum adapt programming and (even) increase our offerings and participation rate without the added concern for more fundraising during a stressful time. We focused on effectively pivoting our programming to virtual platforms serving over 300 participants for our first virtual Women in Leadership Summit, hosting our largest cohort for our signature 9-month mentoring program, and bringing in the highest number of workshop attendees we've ever had. Womentum has learned that women in Jackson Hole are craving networking opportunities, building community, and engaging in growth opportunities more than ever before. As we support these women, they improve the organizations and businesses they serve.

Wyoming Alliance for Environmental Education

Funds from Old Bill's that covered operational expenses has allowed WyAEE the freedom to focus on building capacity. We spent 2020 re-thinking our organization and recruiting additional board members. We held five online focus group discussions with environmental educators to better understand their professional needs. From the information we collected through these discussions, the board held three planning sessions in which we redefined our mission, vision, and guiding principles. The outcome of these efforts will be to better support classroom teachers, conservation organizations, and environmental educators in their efforts to create a more environmentally literate citizenry in Teton County.

Wyoming Stargazing

The funding we received from Old Bill's Fun Run in 2020 supported 123 public astronomy programs, including virtual astronomy programming and indoor presentations for over 3,000 people, including over 1,500 students.

Health & Human Services

Center for Counseling and Education

During the 3 days per week we were open to see clients, 2020, we had 287 client appointments which included 24 pregnancy tests, 24 limited ultrasounds, and 240 parenting classes. Through the "Earn While You Learn" and "Brightcourse" parenting and Life Skills classes, our clients "earned" baby items donated to our Baby Boutique from the Jackson Hole community. We also helped our clients navigate other applicable human services available in Jackson. All of our services are free, confidential, and offered in English and Spanish.

Chabad Jewish Center of Wyoming

The funds we raised with the help of the Community Foundation of Jackson Hole - Old Bill's Fun Run enabled the Chabad Jewish Center of Wyoming to bring the Jackson Hole community together during the isolating period of the global pandemic in a spirit of learning, laughter, and love.

CLIMB Wyoming

During COVID-19, Teton Climb staff continue to help vulnerable families. A top priority is to serve as a resource hub for moms and children during this critical time of need. Climb's model intentionally creates structure, support, and skill-building during crisis. Staff meet with moms in safe ways to ensure they are connected to community resources, while offering advocacy, parenting skills, mental health, and employment support. Climb staff also adapted quickly to offer virtual career training and placement programs including Medical Office/Certified Nursing Assistant (CNA) and Professional Office Careers. These programs served 20 participants while filling critical workforce needs. Climb's virtual format has connected participants to technology and maintained components as therapeutic support and working in groups. Moms are provided with laptops, help accessing internet service, and IT support so they can participate and connect with each other. Graduation rate is 93% with wages increasing 108% pre- to post-program.

Community Bible Church

The impact of Old Bill's 2020 has been a blessing to CBC. It gives us the extra funds to help those in need in our community. We have been able to help so many during this continued time of COVID as many are still in need of help with gas/food, housing, and bills.

Community Entry Services

Community Entry Services provides comprehensive support and services to 30 adults with intellectual/developmental disabilities in Jackson. The retention and recruitment of quality staff to provide these services is vital to our program and our community. Last year's grant supported staff wages and benefits helping CES provide essential services to our community members with disabilities.

Community Safety Network

In 2020, CSN helped 269 adult and child victims; 6,275 safe bed-nights were provided. Financial literacy education is now a formalized component of the transitional housing program. CSN now offers 5 transitional long term housing apartments which has contributed to the approximate 25% increase in safe bed nights from 2018. Professional continuing education opportunities are being expanded to meet community need for training. We have been operating for almost 40 years and never turned away someone who qualified for our housing to a lack of resources. We will continue to meet this community need.

Cultivate Ability

Old Bill's Fun Run allowed us to support over 2,400 hours of training and education programs for 25 employees with disabilities at Vertical Harvest of Jackson Hole. By supporting an inclusive employment model, this impact goes beyond funding and shows that disability inclusion is important to the fabric of our community.

Curran Seeley Foundation

The unique situation during the COVID 19 pandemic made Old Bill's Fun Run funding more important than ever. Curran Seeley transitioned quickly to a telehealth model and managed to provide continuous services to existing and new clients for all but one week. The pandemic exacerbated substance use and substance use issues along with creating financial instability in the community. Numbers dropped during the months of recommended distancing, but clients have come to us in greater need. We were able to provide services at a discount and sometimes free of charge in part because of Old Bill's Fun Run grant funding. We will have seen over 384 unique clients here (mainly via phone and Zoom meetings) for direct services as well as provided assistance and referral services to many more. We were also still able to provide the prevention curriculum to over 1200 students in Teton County Schools.

First Baptist Church

100% of our Old Bill's funds go directly into our Benevolence account. This account is used by our pastors to meet the needs of families / individuals with emergency housing, food, medical, transportation and other financial needs. This past year has been particularly difficult and overwhelming for many. However, the generosity of this community has been overwhelming. Many gave to FBC allowing us to give more to help people through these uncertain days. We received more and gave more than ever before. The amount detailed above includes any left from 2019 through today. The difference between the Old Bill's funds and the amount we gave, approximately \$18,700 was donated to FBC from folks wanting to help. We were blessed to be able to give where needed. All was given with the integrity and intention Old Bill's requires. We appreciate the opportunity to serve Teton County as God leads.

Friends of Pioneer Homestead

Due to the COVID-19 pandemic, the projects that the grant funds would have been used on have been pushed into the summer & fall of 2021. The roof repairs and replacement of 25 water heaters will have a big impact on the quality of life and livability of the apartments for 75+ senior citizens.

Girls Actively Participating! GAP!

GAP! served 200+ girls in 2020-21 with our in-person after school, multi day workshop, and summer activity empowerment programming. Our theme-based sessions included leadership development, social

emotional learning, positive assertive communication, navigating conflict gracefully, lifting each other up, building confidence, and becoming brave over perfect. Our Raising Girls community events for parents, educators, and caregivers provided language and tangible tools to address adolescent issues around body image, managing stress & anxiety, and suicide prevention.

Good Samaritan Mission

We could not have a Rescue Mission here in Teton County without the assistance of Old Bill's Fun Run. Numbers of people served were down because of Covid yet will still fed 5,260 meals, had 4,870 nightly bed stays, we fed children through our Totes of Hope program to the tune of thousands of pounds of food during the school year, and we fed other through food boxes and donations to food banks and churches for even more thousands of pounds.

Habitat for Humanity of the Greater Teton Area

The funds received from Old Bill's in 2020 made an invaluable impact on Habitat's programs and activities. This funding helped to support the wages of Habitat's staff, Homeowner Services, office and job site expenses, volunteer recognition, and much more. Funding for these staff positions enabled Habitat to continue to build affordable housing, assist future homebuyers with their homeownership and loan applications, administer homebuyer education, and facilitate affordable home sales. Volunteers are a key component of Habitat's model; they help leverage financial resources and help foster a culture of cooperation and giving back within the community. In 2020, eight families (10 adults and 25 children) moved into a home at the Grove, and nine more families will be moving in to the final two buildings (with one re-sell) by May 26th, 2021. Habitat is grateful for the support offered through Old Bill's and overwhelmed by the outpouring of support offered by the community.

Hole Food Rescue

Funds from Old Bill's 2020 allowed Hole Food Rescue (HFR) to extend its current programs and increase accessibility to healthy food within our community. In 2020, HFR rescued 162,862 pounds of food and distributed it to those most vulnerable in Jackson. Old Bill's funds enabled HFR to bring on a full-time, bilingual employee to oversee our No-Cost Grocery Programs (NCGP), which helped us foster strong relationships and a greater level of trust within the community. As a result, we saw a 218% increase in participation and are now providing food to just over 600 families each week, up from 190 families in November. We also added two additional locations to the NCGP program, with The Teton Free Clinic being our newest partnership. Lastly, Old Bill's assets helped us continue our mission to eradicate child hunger in Teton County. We currently have 55 children enrolled in our Sprout Weekend Food Bags program in which we deliver snacks and easy to make meals to children that may be experiencing food insecurity over the weekend.

Honoring Our Veterans

The funds we receive from Old Bill's Fun Run help us bring combat wounded veterans to Jackson for week-long recreational rehabilitation therapy sessions. By maximizing the healing potential of nature, we assist veterans as they move forward along their path to recovery by providing them with activities that increase confidence, improve both fine and gross motor skills, improve concentration, build trust, and help with the reintegration process.

Horse Warriors

Because of Old Bill's we were able to keep our doors open, even though we lost over 50% of our normal income due to Covid. We had to cancel all our programs except for one group of independent teen riders. All of our adult programs that usually subsidize our youth programs were unable to be held. Price increases in horse feed impacted us quite deeply and we are grateful that we could keep our program horses fed throughout the year. We had to reduce hiring of summer staff due to the loss of programs but were able to keep our full-time staff person employed.

Immigrant Hope – Wyoming Idaho

In 2020, Immigrant Hope provided application assistance for 39 applicants and provided 36 consultations for forms of immigration relief, for a total of 81 people helped. The largest number of those applications were DACA Renewals and Green Card applications. By providing a legal pathway to citizenship for one person, the whole family benefits as does Jackson Hole. Each individual who is able to attain legal status is another person who can legally work, drive, pay taxes, and participate more fully in the community. It also provides a huge measure of stability to affected families. No longer is the family fearful of what will happen to them.

Institute for Ethnomedicine

A major initiative at the Brain Chemistry Labs is to find a cause for neurodegenerative diseases. With the grant support from Old Bill's Fun Run 2020, the Brain Chemistry Labs was able to use funds that would have been used to pay for rent and maintenance, and instead provide additional lab supplies needed to perform the scientific research which we hope will lead to the discovery of the cause and possible treatment of Alzheimer's, ALS, and Parkinson's disease.

Jackson Hole Child Care Helpers

We granted funds to local licensed preschools and childcares, serving more than 250 local families. Grants supported new educational curriculum, classroom/outdoor materials, hands-on learning tools, and expert instructor led classes (e.g. music and cross country skiing lessons). These grants enable childcare providers to maintain high-quality programming and improve the educational experiences for early childhood learners.

Jackson Hole Community Counseling Center

During this last year, our agency was able to pivot to keep providing services to those most vulnerable in our community during the pandemic. Our staff continued on the front lines, meeting with individuals in crisis both through telehealth but also in person. We were able to provide our staff the equipment to keep them safe and also a bump in pay to responding in person to those experiencing a mental health emergency. In addition, the pandemic took a toll on the mental health of many in our community. We were able to leverage donations and Cares Act dollars to cover the fee for services for Oct, Nov, and Dec of 2020 as well as to cover outstanding balances for clients since the beginning of the pandemic. This eased some financial stress for clients and allowed them to continue with treatment. The total amount

covered was over \$270,000. Without our donors, and those that supported us through Old Bill's, this would not have been possible.

Jackson Hole Community Housing Trust

The Jackson Hole Community Housing Trust is a non-profit affordable housing developer. Our core programs include developing and managing rental and homeownership affordable housing for the local workforce. To date, we have built or acquired 171 homes that have served nearly 600 adults and children. Support for the Housing Trust's programs through Old Bill's Fun Run allowed the Trust to break ground on 24 affordable condos in downtown Jackson just as COVID 19 was becoming a reality in our community. Generous donor support through Old Bill's means that this fall 55 adults and children will be welcomed HOME to 174 North King Street. Stable, quality, and affordable housing for the people that we depend on every day is essential to preserving and protecting what we love most about this amazing place that we all have come to know and love.

Jackson Hole Family Planning

Funding is used for reducing the financial barriers to gynecologic cancer screening, female contraception, and vasectomies.

Jackson Hole Jewish Community

This past year was unusual because of the COVID19 pandemic. However, it allowed us to experiment with some new programs. In April, we presented our annual Holocaust Remembrance event, the virtual screening of the film "Saul & Ruby's Holocaust Survivor Band" followed by a Zoom discussion with JHJC member and son of Holocaust survivor, Cliff Sobin. We then offered a summer-long film group by watching season one of "Unchained", an Israeli TV drama series about divorce in a religious community. There were two group discussion opportunities via Zoom with Jessica Steinberg, Times of Israel's culture editor. In Aug, a book talk in a park, also with Cliff Sobin who just published a book on Israel's northern border. Then we offered membership to one year of the Yiddish Book Club to anyone who wanted it. They received four Yiddish books and discussion groups via zoom. And we also awarded our annual Tikkun Olam College Scholarship. Lastly, we supported vaccine clinic volunteers with refreshments.

Jackson Hole Lions Club

Between Oct 2020 and May 2021, the Jackson Hole Lions Club assisted more than 2,500 Teton County (public and private) school students with eye screening by purchasing and donating eye screening machines to the schools' nursing staffs, and provided 42 individual students with vouchers for financial assistance for eyecare prevention or eyesight restoration. Lions provided financial assistance for adults through our partnership with One22 which provides confidential financial evaluations and assessments. Lions purchased and donated hearing screening machines for public and private schools in Teton County and provided vouchers for students with financial need. A small amount of funds was used to send recycled eyeglasses collected from various locations in Teton County to collection, cleaning, prescription determination center for redistribution. "We Serve"

Jackson Hole Search Dogs

Jackson Hole Search Dog teams deployed on a variety of missions last year in Wyoming and surrounding states including Idaho, Utah, and South Dakota. To assist in the recovery of loved ones and closure provided to family and friends is a profound opportunity for our teams. Teams train year-round in and around the town of Jackson; public lands provide important opportunities. Often teams use the streets of town for tracking purposes in the winter, maintaining our skills for the busy spring, summer, and fall seasons.

Jackson Hole Therapeutic Riding

Old Bill's funds enabled Jackson Hole Therapeutic Riding to adapt to the unprecedented circumstances of COVID-19. They helped to sustain important programs, develop innovative services, advance instructor proficiency, maintain healthy, happy horses, and empower the abilities of hundreds.

One22

The funds raised each year through Old Bill's Fun Run help One22 Resource Center invest in and support our neighbors who face health, financial, and cultural challenges. Last year, our team served 2,566 households. One22 provided more than \$2.7 million in financial assistance to 1,932 households for rent, food, and other critical needs. Since our merger with the Jackson Cupboard in October 2020, we have increased the hours of operation by 30 hours to provide no-cost groceries six days a week. The generosity of private donors allowed us to provide financial assistance, so funds received through Old Bill's Fun Run were used for program development and expansion to allow our organization to scale to meet the increased need in our community. These programs would not be possible without the generosity of our local community through Old Bill's Fun Run.

Our Lady of the Mountains Catholic Church

Our Hearts for the Hungry program has always been driven by the need to serve healthy, nutritious meals to the disadvantaged and poverty-stricken members of our community. With the onset of COVID, though, our program expanded its reach and truly sought to broaden its definition of "hunger" to include community members who were tired, stressed, or anxious due to the pandemic and really just in need of a friendly face and a hot, "safe" meal. Since reopening in May, Hearts for the Hungry has served nearly 4,000 boxed meals via our daily lunch program and (for a number of months) during a weekly dinner service. We continue to actively work to bring hope and stability to guests accessing our program and could not do so without the support of funds received through Old Bill's. Without CFJH and the support of the community, this program would be nonexistent.

Presbyterian Church of Jackson Hole

PCJH uses these funds to help the needy in our community and provide non-religious programs for children, youth, and families. In response to the Covid crisis, 9,126 take-out meals were provided to the community from March 2020, to December 2020. We delivered 380 meals to our local healthcare workers as a thank you. We provided safe preschool for 41 children each day. Summer camp had 35 campers per day. We served additional families through our after-school program, the Big 5 drive, and the Music Academy.

Rocky Mountain Ministries, Inc.

Thank you Mr. & Mrs. Old Bill and the Fun Run donors for our largest grant to date! This was especially wonderful as COVID hit our organization hard last summer. Our organization also provides housing for our year-round employees and summer program volunteers which is a huge need in Teton County. Thank you again for allowing us to be part of this fabulous program for the non-profits of Jackson Hole!

Santa Claus Fund

Santa Claus Fund ensures that Teton County, Wyoming children in need (vetted by the Teton County systems of care) have a Merry Christmas with the help of our Santa "elves" anonymously providing NEW clothes and toys (individually child specific).

Senior Center of Jackson Hole

Old Bill's Fun Run funds make it possible for us to help seniors age in place, safely, in their homes in Teton County. We served 1,560 seniors last year and 89 non-seniors with meals, home care, transportation, and activities. We could not have done this without the donations raised through Old Bill's Fun Run. Thank you!

Shepherd of the Mountains Lutheran Church, ELCA

We gave food and gas gift cards to 5 needy families. We paid the electric and heating bills for several households that Lower Valley Energy was going to have to shut off their power and gas.

Slow Food in the Tetons

In 2020 Slow Food provided critical food access and farmer support during COVID by expanding and diversifying local food markets. In response to food system breakdowns last year, we initiated an Online Marketplace which provided a safe space for over 5,000 individual food shopping experiences and supported 45 local and regional farms with \$180,000 in direct food sales. We adapted the People's Market to run 16 farmers markets during the pandemic that supported 30 local farmers and ranchers with \$230,000 in direct food sales, and the Slow Food Farm Stand which supported 20 local and regional farms with \$116,000 in direct food sales. We funded and distributed over \$8,000 in "Veggie Voucher" promotional coded and worked with community partners to distribute these free food vouchers to those in need. We ran one weeklong Youth Cooking and Farming Camp before cancelling the remaining four and pivoting to online cooking classes which ran both during the summer and twice weekly for the entire school year. We continued to run Community Gardens for 150+ gardeners and their families and waived garden fees as needed. We also launched an annual "Small Farmer Fund", granting \$7,200 to Sweet Hollow Farms to help build a greenhouse. Finally, we successfully and safely ran an in-person two-day event, The Farm to Fork Festival, which engaged over 1,000 locals and visitors from around Wyoming and the Midwest. Our community continues to seek better access to good, clean, and fair food and Slow Food is responding to this need.

St. John's Episcopal Church of Jackson Hole

With the support of Old Bill's Fun Run, St. John's Episcopal Church was able to make a love-spreading difference to children and adults in Teton County. The resources created avenues of fun and adventure for the youth community while serving those in need due to the pandemic.

St. John's Health Foundation

St. John's Health serves more than 20,000 community members and is here for 2.5 million visitors each year. We have over 50,000 patient visits a year. This year all unrestricted gifts were put toward St. John's Health's Most Important need.

Stripping for a Cure

We are so grateful for the support of our generous community! We were able to donate the money raised through Old Bill's to the Women's Health Care Fund and the Oncology Department of St. John's Health Foundation. We bought pumps, monitors, blood pressure units, and oral thermometers for the treatment bays in the Oncology unit. Thank you, Community Foundation!

Teton Adaptive Sports

Old Bill's allows us to feel confident that when we are fundraising and connecting with our community we can fulfill the demand and promises for our services. Fundraising for general operating expenses is the most challenging effort of our organization, Old Bill's alleviates that stressor allowing us to concentrate on our mission.

Teton County Pet Partners

Teton County Pet Partners puts smiles on senior's faces, eases hospital patients' pain and helps kids read. Over 35 active animal therapy teams volunteer locally at C - V Ranch, Children's Learning Center, Jackson Hole Airport, Jackson Hole Community School, St. John's Health, Sweet Peas, Teton County Library, Teton Literacy Center, Teton Science Schools and VOAD. Pre-pandemic, on a heavy week, we served 260 people in our community.

Teton County Public Health

During the past year, operating under serious limitations to clinic services posed by the COVID-19 pandemic, Teton County Family Planning and Reproductive Health Services focused on clients with the highest level of acuity, including cases involving domestic violence, drug abuse, sexual assault, and mental health issues, which we found to be dramatically increased in the population we serve. Despite the need to triage clients requesting appointments to those with greater acuity, our program supported clients at nearly 1000 visits, approximately 8% of which were conducted using telehealth. Notwithstanding the pandemic limitations, program staff implemented several new initiatives including use of telehealth, onsite insertion of IUDs, and collaboration with St. John's Health to maintain strict instrument sterilization procedures. To further address community requests, our 2021 Old Bill's Fun Run application seeks to expand utilization of funds received to include point-of-care ultrasound services to improve IUD insertion/removal efficiency and safety.

Teton County Search and Rescue Foundation

In 2020 our volunteers spent 3,355 hours on rescues, 4,539 hours training and 235 hours at community events. We pivoted in offering in person education to a virtual and online platform, harder to identify exact numbers, but we are guessing we touched at least 1,500 community members from kindergarten to elderly adults. We continued to serve elementary school children in person through the Friday program. The TCSAR Foundation supports volunteers who serve our community by saving lives.

Teton County Victim Services Program

The continuation of COVID19 has impacted the expenditures of OBFR that were anticipated for 2019, and 2020 had to be recalculated; the benefit has been a transition to many online trainings which would have previously been too costly with travel and airfare for our advocates to attend. This has allowed our advocates to be able to increase our skills and abilities to respond to critical incident events. OBFR funds have also provided much needed support to 10 households during an attempted homicide event in the past year. The funds allowed TCVS to provide toiletries and other necessities for these displaced people. TCVS also was able to provide crisis support for the victim and family and continues to work with them as we progress through the criminal justice system. We are also collaborating with local law enforcement to provide a trauma informed interviewing training for over 35 officers and advocates.

Teton Free Clinic

The Teton Free Clinic believes that everyone has the right to receive medical care regardless of their ability to pay. We understand the challenge faced by those who work in a seasonal community where most are not provided with health insurance creating a barrier to accessing medical care. The clinic is open 2 days a week and provides care to more than 1,000 patient visits annually. One goal is to keep non-emergent patients out of the emergency room. Our patients are provided consultations, medications, diagnostic studies, and supplies for issues such as diabetes, heart disease and hypertension.

Teton Youth & Family Services

Teton Youth and Family Services provides programs of immense value to children, their families, the schools, law enforcement, the judicial system, employers, the government, and to the overall health and well-being of our community. The impact the Hirschfield Center has on our community is seen in the reduced incidents of child abuse and increased functioning of the families, with 99% of families completing the program and having no further incidents. The Van Vleck Group Home and Crisis Shelter and Red Top Meadows Residential Treatment Center provides help for children who are working through serious behavioral, emotional, and/or mental health issues. Impacts these programs have include increased academic success, positive behavioral changes, increased communication and relationship building skills, and resulted in 85% of youth not needing higher levels of care, laying the pathway for a rewarding and fulfilling life. Old Bill's allows these impacts to continue for youth and families in our community.

The Children's Grand Adventure

Due to Covid-19 and, in conjunction, working with immune compromised children, the very difficult decision was made with an abundance of caution, to pause all remaining 2020 and 2021 programs. With that, we are continuing to loyally dedicate these unspent funds to program costs for our next scheduled program, which is set for early 2022, as per the intended and understood purpose of our deeply honored grant receipt of 2020. Old Bill's 2020 has brought new awareness to The Children's Grand Adventure, allowed us to host a Virtual CGA Day, and we are thrilled to be able to announce our new virtual programming, coming later in 2021. Continuing with our steadfast commitment in allocating all proceeds directly toward program costs, we will remain true to such said original intended purposes of the grant. We could not be looking more forward to using all proceeds for this upcoming year toward continuing and expanding accessibility to our mission of helping more children heal through exploration and create incredible lives after cancer.

The Spread the Love Commission

Funding received from Old Bill's allows us to be more dynamic with local issues by building effective partnerships with other local organizations to increase our reach and impact. It also allows us to have a stockpile of supplies on hand for distributions in emergencies. These partnerships, resources and additional supplies allowed us to quickly and directly address the increased needs of the vulnerable in our community during the pandemic. Since March of 2020, we have distributed 10,000 health and hygiene kits to people severely impacted by the economic shutdown or who were in quarantine with C19.

Wind River Foundation

The Wind River Foundation, in deference to public health priorities, suspended all of our planned public programming as of April 1, 2020 to focus all efforts on the distribution of our COVID 19 Response Fund. In 2020, the Foundation was able to distribute over \$62,000 in funds, directly accessible to our tribal partner program's response to the COVID 19 pandemic. As with our other programming, all Teton County programming was cancelled or suspended. The Foundation is in the process of beginning to reinstate program planning. Last year's Old Bill's Funding will be budgeted toward this effort.

Wyoming K-9 Search & Rescue, Inc.

The Old Bill Fun Run monies allowed WY K9 SAR to purchase items to allow us to be in the field for multiple days, expand equipment needed to train the dogs for drowned subject searches, and other necessary equipment. We were able to continue to train and test our teams to be able to respond for searches. Although this year has definitely had its limitations, due to the corona virus, we worked all year to keep our teams in top form, as well as bringing on some new candidates.

Young Life Jackson Hole

Grant funds through Old Bill's helped fund 2 major community-wide events for teenagers that are fun, safe, and full of adventure. Mr. Christmas Tree Pageant in December and the annual Patriotic Color Run 5k in June. Also helped fund over 15 smaller events throughout the year, including over 100 teenagers and 250 community members.

Sports/Recreation

Advocates for Multi-Use of Public Lands

We continue to work with the US Forest Service to identify more trails and establish connecting trails, thus taking the financial burden off the Forest Service where possible. The grant monies went to begin our trails program which we are ramping up to start again the summer.

Axis Booster Club, Inc.

During the 2020 fiscal grant year AXIS gymnastics focused on athlete and coach development. Funds were allocated to 3 coaches and to attend coaching clinics. These clinics provided coaches an opportunity to learn from non-local experienced coaches to support athlete development. In addition, funds were allocated to provide onsite physical therapy for athletes in addition to upgrading technology in the gym to allow for live recording of skills. This allowed coaches and athletes to review skills, reflect, and improve

upon technique. Finally, the Booster Club supported athlete recognition and subsidies for competition leotards and warm-ups

Carving the Future

In the last year, despite Covid. Carving The Future was able to give away over 30 skateboards to kids in need. In the winter of 20/21 alone we introduced over 65 kids to the sport of snowboarding, got them passes, full boards, bindings, and boot set-ups. We gave away full set-ups to over 30 kids this winter alone. We heavily rely on our gracious donors for their used equipment to give away, but to go snowboarding isn't just 1 item. You need lots of gear and as an organization these Old Bill's funds are critical for buying gear we're missing, supplies, storage, and other operational expenses. Especially during COVID with so many kids stuck indoors, we are proud that we have provided so many youth with an opportunity to get outside and have fun, while staying safe from the virus.

Center Management Inc.

With the tumultuous pandemic this past year, we missed budget marks on a lot of items. The Old Bill's Grant aided in the ability to continue to provide subsidized hourly ice rates for youth programs, Adult programs, and Figure Skating programs. Additional donor specified contributions supported the minimal but necessary JHLive operational costs we had to bear without having hosted a summer concert series. All of this provides the opportunity for SKSEC to continue to operate year round, and set sights on our return to normal.

Coombs Outdoors

With 300 participants, this was our biggest winter program season ever. Old Bill's funds covered just over half of our total winter program costs, making it possible to accommodate even more kids at both Snow King ski school (206) and our JHMR Powder Pals program for middle and high schoolers (79). These funds also helped fuel our after-school Nordic ski program, a partnership with 22Nordic and the JH Ski and Snowboard Club that provided Nordic coaching and mentorship for 15 K-6 kids. Especially during a difficult COVID school year, our winter programs didn't just teach ski skills but served as positive, active, and social outlets for our participants and their families. Without Old Bill's funding, we wouldn't be able to get as many kids out skiing, building confidence, and connecting to Jackson's outdoor community.

Cycling Without Age Jackson Hole

COVID-19 prevented CWA-JH from building on our successes from 2019 for the first half of our 2020 season, limiting our ability to serve the broader community with public rides. However, we were able to continue to work with Legacy Lodge and St John's Living Center to train staff as volunteer "pilots" who offered rides to facility residential clients. We also partnered with the Senior Center of JH in order to offer community rides to Pioneer Homestead residents and community members who had few opportunities to enjoy the outdoors and our community.

Friends of Pathways

Our Old Bill's grant last year in 2020 had many key impacts including FOP staff spending 5,000 hours in the field working to improve public access, user education, and experience along Jackson's vast backyard trail and pathway network, and the Teton Mobility Project Survey Map project collecting 800 comments from the public to help guide the next decade of investment in walk and bike infrastructure. Several trail & pathway projects were completed or started: Cache Creek single-track winter grooming, Old Pass Road restoration (in partnership with Team Jackson Hole & Teton County), Summer Youth Trail Crew Program (9 crew members), Adams Canyon connector trail (started), Game Creek Road connector trail (almost complete), Pine Drive connector trail (completed), Cache Creek rehabilitation and repair, Blair Drive Bike Park enhancements, pathway radar signs purchased & used along high-conflict areas, over 400 bike bells distributed or installed, and over 300 trees cleared from trails. 18,831 (207/day)=Number of people who utilized Cache Creek trail last winter, 10,182 (112/day)=Number of people who utilized Hagen trail last winter, 31,132 (338/day)=Number of people who utilized Cache Creek trail last summer, 29,027 (315/day)=Number of people who utilized Hagen trail last summer.

Friends of the Bridger-Teton

Friends of the Bridger-Teton benefited immensely from the 2020 Old Bill's Fun Run Grant. We were able to devote substantial staff time and capital toward a large collaborative winter and responsible recreation campaign partnering with several Teton Co. non-profit partners and the BTNF. Additionally, FBT was able to provide continued support for the Wildlife-Recreation Coexistence project in Teton County including the hybrid public forum event taking place May 21st at the Center for the Arts. As FBT is most active during the summer months, we will be using unspent funds from 2020 to expand our ambassador program in Teton County. Funds will support two wildlife/bear ambassador positions on Togwotee Pass, two dispersed recreation ambassador teams at Shadow Mountain and Toppings, and two recreation ambassadors in the Philips Ridge/Teton Pass area.

Grand Teton Climbers' Ranch

The Grand Teton Climbers' Ranch was closed during the 2020 season due to Covid-19 concerns. This closure was agreed to and recommended by Grand Teton National Park. In a normal operating year, the Grand Teton Climbers' Ranch provides dormitory style lodging to over 1,200 guests each summer at very modest rates of \$25 + tax per night for American Alpine Club members and \$30 + tax for nonmembers. Funds received from the Community Foundation of Jackson Hole are critical to the ability of the AAC to charge such low rates. CFJH funds are also critical to our ability to maintain and preserve the historic structures of the ranch, which date back to the 1920s. The AAC has operated the Climbers' Ranch since 1970, serving climbers visiting Grand Teton National Park from throughout the country and the world. The Climbers' Ranch is an authorized concession of the National Park Service.

Jackson Bronc Backers

Thanks to the generous support of Old Bill's Fun Run, Jackson Bronc Backers was able to provide funding for 16 Jackson Hole Highschool Teams, as well as the astronomy club, the Robotics Team, JHHS Speech and Debate Team, and JHMS activities. The general fund allows JBB to fund additional projects, for example, a continuing education conference for the JHHS athletic trainer. The money raised through Old Bill's Fun Run positively impacts the approximately 1500 students at JHHS and JHMS.

Jackson Elite Volleyball Club

Last year's Old Bill's Fun Run grant had an incredibly positive impact on nearly 35 local middle and high school girls who participated in Jackson Elite Volleyball's 2021 season. By covering a portion of coaching fees, grant funds allowed us to offer scholarships to a number of girls, broadening the accessibility of our program. Overall, Old Bill's grant funds helped JEV to succeed in our mission of challenging athletes to be the best of volleyball players and teammates, both on and off the court.

Jackson Giants Baseball – American Legion

Since WY doesn't include baseball as a high school sport, our organization is the only baseball outlet for kids aged 13-19 in Teton County. During 2020, we served 40+ families and gave them a world-class baseball experience from March through July (even during the pandemic). We find that our scholarship program is utilized more each year and we're proud to have supported families with more than \$3K in scholarship funding. Furthermore, our program graduates upstanding adults to society who've grown and matured through sport. The icing on the cake is that 3-5 players move on to play college baseball each year.

Jackson Hole Babe Force

Funds raised through last year's Old Bill's Fun Run directly supported Jackson Hole Babe Force programming for local women and girls, including scholarships to participate in avalanche education and virtual backcountry safety programming.

Jackson Hole Juggernauts Roller Derby

In the last year Covid had a major impact on our operation as a team. We were unable to (and continue to be unable to) hold practices in indoor spaces as outlined by the metrics of our governing board of the WFTDA (Women's Flat Track Derby Association) return to play policy. Even though we were not able to practice, we are still a close group of women who support each other and have plans to support the local community at large by providing an athletic outlet while rebuilding and re-establishing our team.

Jackson Hole Kayak Club

Our grant received from last year's Old Bill's helped create opportunities for over 30 children to enjoy the waterways of the greater Yellowstone area during last year's odd season. By creating access for young athletes to enjoy the rivers of our area, we are raising future environmental stewards and explorers, continuing to cultivate an attitude of conservation and exploration of our area's natural environments. It is our responsibility, as people who love this place, to cultivate a similar love in the next generation safely and responsibly. Our goal is to provide the opportunity for outdoor recreation and stewardship to any child interested, with Old Bill's money helping to fund scholarships and opportunities for all children in our community to enjoy our waterways. Old Bill's also helps us establish relationships with other area nonprofits in order to provide our services to a wider audience in order to have the greatest impact.

Jackson Hole Lacrosse Club

The Old Bill's Grant specifically enables Jackson Hole Lacrosse Club (JHLC) to hire and pay great coaches who are knowledgeable of the sport, strong role models, and who teach life skills and character through coaching the sport of lacrosse. JHLC offers a variety of lacrosse programming in Jackson Hole for boys and girls from 1st-12th grade. The core programs are the Spring Season and Fall Season where JHLC offers at least one team at each age group: High School, 14U, 12U, 10U, 8U. The Spring 2020 Season was

unfortunately cancelled, but JHLC did operate "Return to Play" practices during the month of June. JHLC also operated its most robust and highest level of participation Fall 2021 Season with over 200 participants. JHLC operates other programming including "Summer Pickup" (freeplay), free "TRYLAX" clinics, summer day camps, and "Special Guest Clinics" with professional players and/or college coaches. JHLC also hosts its annual Mountain Roundup Tournament every year, where over 50 teams from the Mountain West region come to Jackson Hole to play our teams in a fun lacrosse festival-style weekend jamboree.

Jackson Hole Pony Club

Old Bill's funds have allowed us to increase the educational opportunities offered to JH Pony Club members. The group has added new members this year and a more diverse group of equestrian activities is available.

Jackson Hole Shooting Sports Foundation

With the help of Old Bill's, the Jackson Hole Shooting Sports Foundation was able to complete critical infrastructure and purchase equipment to extend the use of the range in areas that would normally shut down for the winter. This allowed participants to extend their season in a safe manner and continue to maintain social distancing protocols.

Jackson Hole Ski & Snowboard Club

Funds from 2019 Old Bill's Fun Run helped JHSC successfully deliver winter sports programs and character development to nearly 500 local youth. This funding has helped us pursue our strategic goals of doubling our need-based scholarship funding to over \$100,000, making the Club more inclusive. We continue to meet a higher standard in program delivery, sustainability, and staffing as a Silver Certified Club designated by US Ski & Snowboard, positioning JHSC in the top 8% of Clubs nationwide. This funding allowed us to expand initiatives that better serve the community and our athletes like expanded backcountry and avalanche awareness programming, enhanced student-athlete support and expanded year-round programming. From an athletic performance view, our programs are designed to support our student-athletes reach high levels of the sports and we continue to see these results in all programs.

Jackson Hole Youth Baseball – Cal Ripkin Division

To aid, encourage and promote the welfare of Jackson Hole's youth by providing supervised baseball games thereby implementing ideals of sportsmanship, honesty, loyalty, courage, and reverence. Funds cover primarily equipment for safe playing and learning of fundamentals of baseball.

Jackson Hole Youth Basketball

Thanks to the support of Old Bill's, we were able to continue growing our programs to include over 250 local youth. The organization continues to grow with the help of dedicated families, board members, and staff. Jackson Hole Youth Basketball is pleased to partner with Teton County Parks and Recreation and the Jackson Hole High School basketball programs to offer leagues, camps, clinics, and tournaments throughout the year to boys and girls in grades 1 through 12. We hope to continue our programs by expanding and improving on our coaching and helping to instill the core values of JHYB which are: growth mindset, effort, learning, freedom to make mistakes, and respect for the game.

Jackson Hole Youth Mountain Biking

OBFR funds helped JHYMB continue to operate during our 2020 season, registering 80 middle and high school student athletes. These riders were led by 35 licensed volunteer coaches in more than 50 weekly mountain bike practices in the Idaho League of the National Interscholastic Cycling Association. The team also participated in local trail cleanup maintenance efforts and volunteer days. We continue to provide quality mountain bike programming to young athletes and to grow lifelong mountain bikers and cyclists.

Jackson Hole Youth Soccer

Jackson Hole Youth Soccer (JHYS) impacts a large segment of our local community. We operate soccer programs in the spring, fall, as well indoor training in the winter and camps during the summer. Last year JHYS had approximately 650 players with 1,050 total registrations for our programs. Players represent a wide spectrum (3U to 19U). In total, JHYS provides healthy after school options for roughly 30% of all kids in local schools. Our programs provide a positive impact on the education and development of children in the Jackson Hole community. We teach the ethics of hard work, the benefits of teamwork, self and team discipline, along with the satisfaction of putting in the effort to achieve goals. Donations from Old Bill's are critical to our success as they allow JHYS to keep registration fees as low as possible. We remain grateful for the support we receive from the community.

Jackson Youth Skating, Inc.

Because of our generous donors we were able to provide numerous programming to our players and children in our community that we would not be able to do without the funds we raised.

JH Stingrays

The funds from last year's Fun Run allowed JH Stingrays to provide a space and coaching for swimmers in Teton County to grow as athletes and team members, as well as travel to competitive events around the region. With COVID, we were able to accommodate fewer swimmers, but had to maintain our coaching staff, which increased the cost of our operations. We anticipate increased lane fees in the coming year as the Teton County Parks and Recreation Department adjusts its fee schedule and Old Bill's funds are critical to ensuring the team remains financially sound to carry out its mission.

Skating Club of Jackson Hole

The Skating Club of Jackson Hole's after school Learn to Skate program provides opportunities for children of all ages to promote the enjoyment of ice skating and athletic achievement. The funds received through Old Bill's Fun Run assist in providing quality coaching, expertise, and equipment usage, while keeping the price affordable to all. Our programs fill a much-needed role for healthy activity during the critical after school hours by providing a safe, structured environment for the children of working parents. Studies show that after school extracurricular activities help to build confidence and self-esteem which can boost academic performance, reduce risky behaviors, and promote physical health.

SK8 JH Inc.

The development of JHWW has become multi-faceted in its ability to meet needs within the community and add to the tourist experience of Jackson Hole. Through OBFR we provided public skating opportunities during after school hours and weekends, an affordable family activity for the community and tourists alike, and we provide a distinctive character to the square and the Teton Village commons, bringing vitality to the valley during the winter. This year we serviced over 6,448 participants, including

multiple repeat families and youth, locals, and tourists. These numbers only reflect rental users as those with their own skates so do free at any time. We estimate over 7,000 users this for the 2020/2021 season.

Snow King Volunteer Ski Patrol

Through the donations and matching funds from last year's grant, we have been able to continue to hold quality training programs, purchase and update rescue training equipment, and support our instructor's continuing education.

Special Olympics Wyoming – Teton County

Over 200 Teton County athletes, partners, coaches, and volunteers are actively registered with Special Olympics Wyoming. The caliber of Teton County volunteers providing a quality experience for our athletes promotes physical activity and physical fitness, and in turn promotes inclusion and acceptance in the community.

Teton Backcountry Alliance

The TBCA's of OBFR resources served to address many of the congestion, safety, and sustainability issues of winter backcountry use in 2020-2021. These actions were particularly important in the covid year when there was a significant increase in BC users. The Volunteer Ambassador program was particularly useful this year.

Teton County / Jackson Parks and Recreation

The funds that are raised from Old Bill's Fun Run for parks and recreation goes towards our scholarship program. This has helped 20 families to date to be able to attend our Summer camp program. More than ever families are going to need the assistance to be able to provide their child an experience that will have a meaningful impact.

The Teton Climbers' Coalition

With help from Old Bill's, we were able to continue to serve the Teton climbing community with a stewardship project (Rodeo Wall), support for the development of the Rec Center climbing gym, and a (virtual) Winter Speaker Series. We've done more than 70 hours of research on behalf of the climbing gym. More than a dozen people participated in the Rodeo Wall stewardship project. More than 500 people participated in the Winter Speaker Series.

Teton Freeriders, Inc.

The funds from Old Bill's Fun Run last year were used for trail maintenance, repair, and administrative expenses. During the pandemic, the trail system in the Teton County area saw an exponential increase in users. With these funds, we were able to put 1,370 hours of paid labor hours and 1,250 volunteer labor hours back into the community trail network. We greatly appreciate the support from Old Bill's Fun Run.

Watershed Jackson

Watershed Jackson continues to place emphasis on prevention in sports by updating our community's Concussion Screening and Management process. We are in our third season of a community-based research project based on Concussion Management in Extreme Sports.
